Let's dive into some of the projects & campaigns

While working at zeropozitive, it was a pleasure designing the Digital Astronaut Character for SPEEEX, which became the centerpiece of their 2023-24 campaign.

Beyond the character itself, I also directed the entire theme, ensuring a cohesive visual identity across all campaign materials.

This included print designs, social media designs, promotional assets, and brand elements, creating a unified and impactful presence.

During my time at Dizarium, I directed the branding & social media for Qumështorja Drena.

I crafted a strong visual identity, from packaging, including their highly popular milk, to print materials, social media content, and promotional assets.

My work played a key role in shaping the brand's presence across Kosova, ensuring consistency and impact across all platforms.
